📍 Chiang Mai, Thailand (GMT+7) | Open to remote opportunities

SUMMARY

Senior Mobile Developer and Technical Lead with 10+ years iOS native experience and 2 years building cross-platform apps with React Native + Expo. Shipped apps for fintech (20M+ DAU), health & wellness, and startups. Experienced working async with distributed teams across timezones. Looking for remote Mobile Lead / Senior iOS Developer roles with US or European companies.

EXPERIENCE

Senior iOS Developer & Mobile Lead

Mar 2022 - Dec 2025

Lovi | Limassol, Cyprus (Remote from Thailand)

Led mobile development for a health & wellness startup (~50k downloads), building iOS and React Native apps from ground-up.

- Built cross-platform app using React Native + Expo, shipping to App Store and Play Store
- Developed AR-powered face scanning feature using CoreML/Vision for real-time skin analysis
- Integrated AI chatbot to improve user engagement
- Led team of 4 developers, mentoring juniors to senior level
- Owned technical decisions on architecture, tooling, and CI/CD processes

Senior iOS Developer

Dec 2020 - Mar 2022

Alfa-Bank | St Petersburg, Russia

Built features for Russia's largest mobile banking app (20M+ DAU).

- Led team developing internal UI framework used across the app
- Created Swift code generation tool, reducing boilerplate
- Built Slack bot to automate iOS team workflows
- Shipped features within 50+ developer team

Senior iOS Developer

May 2017 - Dec 2020

Distillery | St Petersburg, Russia

Delivered five iOS apps across fintech, healthcare, and e-commerce.

- Built apps end-to-end from architecture to App Store release
- Worked directly with US clients, translating requirements to technical specs
- Maintained high code quality while meeting aggressive deadlines

iOS Developer

Oct 2016 - May 2017

MBK | St Petersburg, Russia

Built high-frequency trading app handling real-time market data.

- Developed custom cross-platform charting solution (iOS + C++)
- Optimized for low-latency data rendering

Middle iOS Developer

Dec 2014 - Nov 2016

Michael Kechinov's Startups Development Studio | St Petersburg, Russia

Developed and launched multiple iOS apps across different domains including interactive stories for children, food delivery, and taxi services.

TECHNICAL SKILLS

iOS Native (10+ years)

Swift, Objective-C, SwiftUI, UIKit, Swift Concurrency, Combine, Core Data, CoreML, ARKit

React Native (2 years)

React Native, Expo, TypeScript, Native Modules, EAS Build & Submit

Web / React (2 years)

React, TypeScript, State Management (Redux, Zustand)

Architecture

MVVM, Clean Architecture, TCA, VIPER, Modular Design

Tools & Practices

Git, CI/CD (Fastlane, GitHub Actions, Bitrise), XCTest, Jest, Agile/Scrum

Languages

Russian (Native), English (Advanced)

HIGHLIGHTS

- 10+ years iOS development, from Objective-C era to modern SwiftUI
- Shipped apps serving 20M+ daily active users (Alfa-Bank)
- Led mobile team of 4 developers, mentored juniors to senior
- Cross-platform expertise bridging iOS native and React Native
- Experience with US and European clients in distributed teams
